

**Noah's Ark Promotes Low-carbon Living
Promise to Reduce Your Carbon Footprint to Get 15% off Tickets to Noah's Ark**

16 Jul 2010

There's more to do in summer than surfing the Internet and playing video games at home. Start a low-carbon lifestyle and do your part to protect the environment! Ma Wan Park Noah's Ark has some events planned to spread the green message and encourage people to reduce carbon emissions. Visit the Noah's Ark web site 'My Pledge' page between July 20 and September 30 and set goals to reduce your carbon footprint to get 15% off two tickets. Don't miss the love, harmony and joy!

Ma Wan Park Noah's Ark is a special attraction that promotes love for life, family and the earth, and it is offering a host of educational and entertaining events to promote low-carbon living this summer.

Exploring Art with the Great Artists

Noah's Ark will feature the works of impressionist master Claude Monet, surrealist Joan Miró and others. This experience will take you to the world of low-carbon art (enquiry: 3411 8883).

Noah's Ark Investigation

Imagine it's 2030 and all the species now endangered are extinct! Join Dr Tortoise at the Noah's Research Base to investigate the cause, and take the opportunity to appreciate the many rare and endangered species on display in the Ark (enquiry: 3411 8888).

Low Carbon Food

Start low carbon living with your diet. The Harvest Restaurant at Noah's Ark offers a special menu using low-carbon ingredients and cooking methods (enquiry: 3411 8812).

We can all contribute to a better environment by reducing carbon emissions in our daily lives. The Noah's Ark 'Pledge to Low-Carbon Living' programme offers tips. Make your online pledge to get two discounted Noah's Ark tickets. See www.noahsark.com.hk for details.

The Noah's Ark low-carbon events include interactive games and exhibitions that teach about carbon.

The Great Artists showcasing low-carbon art.

Noah's Research Base displaying rare and endangered species like the Toco toucan shown.
