

Ma Wan Fun-Filled Sustainable Development

Learning Journey

Language English, Cantonese or Putonghua

Embark on Ma Wan island to kick start a journey of sustainable development learning. Through guided tours, interactive games, and workshops, you will gain invaluable knowledge about diverse topics such as environmental technology, ecological conservation, renewable energy and sustainable cities. At the same time, you will understand the importance of sustainable development, learn to cherish Earth's resources, cultivate environmental awareness, and contribute to the achievement of the Sustainable Development Goals (SDGs).

Life Wisdom of Plants

The botanical guide will lead participants to explore Ma Wan, searching for edible plants which can be discovered around Noah's Ark and the organic farm, as well as visit the Screw Pine and Banyan in the Nature Garden. Through guided activities and interactive games, participants will learn about the different functions and medicinal values of plants, so as to savor the wisdom of nature in the wild.

Target P.3 or above

Capacity 15 Participants **Duration** 1.5 hours

Umbrella Tree

The flowers resemble octopuses, hence the alternative name is "Octopus Tree."

Screw Pine

Also known as "Fake Pineapple", it is one of the 24 ingredients used in herbal tea.

Leopard Gecko

Colorful and small, with leopard-like patterns on their bodies.

Participants will wander around Ma Wan to find common local amphibians under professional guidance.

Target P.4 or above

Capacity 15-30 Participants **Duration** 1.5 hours

Ma Wan Day and Night Eco Adventure

Through the day or night ecological tours featuring distinct views of nature respectively, tour guides will take you on a leisurely stroll through beaches, forests, ponds, mangrove wetlands and organic farm, looking for various types of wildlife including common local frogs, fiddler crabs, nocturnal insects.

Fungi Mystery Exploration

Participants can visit the edible mushroom cultivation lab in the park to learn about the characteristics, unique growth environment and medicinal value of mushrooms. They can also use recycled coffee grounds and wood chips to make mushroom cultivation bag and have a chance to harvest edible mushrooms to discover the magic of mushrooms, so as to practice sustainable low-carbon agriculture.

Target P.3 or above

Capacity 15 Participants **Duration** 1.5 hours

Farming Exploration

Participants will have the opportunity to learn and experience the principle of farming, as well as explore the nature beauty of the Ma Wan Island. In addition to learning about the connection between the 24 Solar Terms in Chinese culture and traditional farming, participants will engage in food waste farming at the Noah's Organic Farm, tasting organic products and learn to make good use of renewable resources.

Target P.1 or above

Capacity 20 Participants **Duration** 1 hours

Advanced Animal Conservation Programme

Let's grab the chance to encounter various animals, such as Yellow-crowned Amazon and the critically endangered radiated tortoise in this all-rounded learning program. Through detailed presentations and hands on live animal encounters, participants will learn about animal habitat conservation, amazing animal facts, and ecological balance between endangered animals and humans.

Target P.1 or above

Capacity 35 Participants **Duration** 1 hours

Surviving in the Wild

Participants will become little adventurers and gather materials from the wilderness and learn scientific principles to start a fire, create a natural water filter to extract drinking water, and work together to find survival methods to leave the deserted island. By completing small tasks, they will understand the importance of treasuring our natural resources, and learning how to utilize and protect nature.

Target Kindergarten to Primary

Capacity Max 50 Participants **Duration** 45mins to 1 hour

Ark Life Planning

Under the guidance of animal caretakers, students will enter the secret base of the Ark Expo to understand the daily operations and the process of caring for various animals at the museum. By interacting with the animals, students will further discover their interests, strengths and personalities, to get prepared for their future careers.

Target P.4 to Secondary

Capacity 30 Participants **Duration** 2 hours

Sustainable City Walk

Participants will explore the entire Ma Wan Island, discovering its heritage sites, fishing village history, ecological environment and indigenous species. Through various traces and clues, they will gain an understanding of the relationship between ecology and urban development, so as to foster their awareness of practicing sustainable urban development.
